THE
TROPICO INTER URBAN SENTINEL

Devoted to Tropico, the San Fernando Valley and Southern California

VOL. VII TROPICO, (Los Angeles Postoffice) CALIFORNIA, THURSDAY, NOVEMBER 29, 1917 NO. 48

Valedictory

December 4th, 1917.

Dear Subscriber:

This is to advise you that "The Tropico Sentinel" has been consolidated with the "Tri-City Progress" of Glendale, and that the combined papers will hereafter be published as one under the caption, "Glendale Sentinel-Progress." Sentinel subscribers will have the privilege of applying their credits upon subscriptions to either the weekly above mentioned or "The Glendale Evening News," as they prefer.

I have been retained upon the staff of the paper to represent Tropico and its interests and to collect its news. This means that I can give Tropico better news service than ever before because of my freedom from the many business cares connected with the publication of the Sentinel as editor, business manager, reporter, collector, bookkeeper, etc.

I have faith enough in the good sense of subscribers to believe they will agree with me in thinking that since Tropico and Glendale are to be united, their interests should be consolidated as far as possible. A few strong papers are of far greater value to a community than a larger number of weak ones. My interest in the Tropico end of Greater Glendale is in no way diminished and I intend to work for its betterment harder than ever before. I feel justified therefore in entertaining the hope that Tropico subscribers will now be as willing to stay with me as I have been willing to stay with them to the limit of my ability.

Cordially yours,

Gertrude Gibbs

OFFICIAL PAPER OF THE CITY

When we think of Thanksgiving Day in Southern California in the year 1917 and of the first Thanksgiving Day in 1820 "on a stern and rock-bound coast" there would seem to be little in common, yet when we delve into fundamentals, we discovered they are not so far apart as would appear at first sight.

The founders of Thanksgiving were English pioners so inspired by a great principle as to be willing to abandon comfortable English homes and make a long, dangerous voyage to an inhospitable country for the sake of establishing there a state in which men would be guaranteed civil and religious liberty. Their hardships of necessity made their outlook upon life a serious one.

How different are the easy conditions on the Pacific today and the attitude of our people towards life and its moral responsibilities and yet—when the tremendous needs of a great moral crisis represented by a world war have put our young men to the test, we find in them the same virtues that animated their forefathers. They are even greater altruists in that they are willing to shoulder guns and cross the seas to fight in strange countries that other lands in which they have no part may have liberty in larger measure.

Surely there is cause for thanksgiving in this demonstration that our people are still living up to the high ideals upon which our government was founded, even at the cost of sacrifice and suffering. Our moral fibre has not been destroyed by prosperity and soft living.

President Wilson is right when he sets forth as the out-standing reason for thanksgiving at this time, the high privilege which is ours of battling for democracy.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

Take Hall's Family Pills for constipation.

OBITUARY

To the Sentinel:—

Last Wednesday (Nov. 21st) there passed from our midst a child of the tender age of six years, eight months and six days.

Her advent into the world was under the most promising auspices Her star of destiny seemed to be fixed. But she soon developed symptoms of an organic malady.

She was given very tender treatment but the malady soon developed to such a state that she was attacked with violent fits. As she grew older these fits occured with more frequency and violence.

Her troubles seemed to be from different causes. The light also troubled her a great deal; no remedy seemed to avail. A specific was proposed by a number of her friends, but as the remedies proposed for her different ailments all bore the same brand they were looked upon with suspicion by a number of friends attending on her and rejected. Her condition gradually grew worse until she was finally attacked by a violent fit to which she succumbed about six o'clock P. M. on date above mentioned. This child of promise was christened Tropico.

Her remains will be interred in Glendale,

God rest her bones.

Signed, D. I. NOFZIGER

P. S. The thanks of her friends are extended to all those who assisted so nobly in ending the sufferings of this unfortunate child.

All boys think they will be richer than their fathers, and all girls think they can keep house better than their mothers. They continue to think this until they are fathers and mothers themselves.

PROCEEDINGS OF BOARD OF TRUSTEES

At the regular meeting Tuesday evening, but four members were present, vis. Trustees Peters, Seal, Henry and Alspach.

Communications

A letter from the Auditing Company of Los Angeles was ordered placed on file and the same instructions given with reference to a letter from the City of Pasadena inviting Tropico to participate in the Rose Tournament.

Telephone Merger

Some discussion was had relative to the proposed merger of the Pac. Tel. and Tel. Co. and the Home Telephone Co., of the San Fernando Valley with the probability that a toll would be imposed on Los Angeles messages. A resolution of protest was passed against the merger and tolls similar to a resolution adopted by Glendale, and the City Attorney who was instructed to appear before the Railroad Commission and file the Board's resolution and protest.

Edison Company Retrenching

The City Clerk stated he had been informed by Mr. Coulter, district representative of the So. Cal. Edison Co., that he had been instructed by the Company to spend no more money on betterments and extensions in this district and therefore could not install the red danger signal lights on San Fernando without instructions from Mr. Byrnes.

Gardena Crossing

Relative to the suggested railway crossing at Gardena ave., the clerk stated he could find on file no report from the Railroad Commission but that Ex City Attorney Goodwin had informed him that when he appeared before them unofficially, that the Commission stated that Tropico would have to pay the cost of such crossing.

Treasury Balance

The City Clerk futher stated that the balance in the Treasury after meeting the current demands would be about $200 but that the Treasurer would be able to secure a sufficient advance on tax moneys to meet the salary roll of the month.

Canvass of Election Returns

On motion of Henry the Board proceeded to canvas the returns of the election of November 21st. As there were some discrepances in figures and omissions, the members of the election board of Precinct No. 2 were summoned and sworn and the necessary corrections were made by them. A resolution was then adopted declaring the result of the election as follows: Precinct No. 1, 383 for, 66 against consolidation; Precinct No. 2, 267 for, and 145 against consolidation; The vote by which the resolution was carried stood 3 "yes", one absent, one (Seal) not voting.

Light Rates

The question of light rates came up and agreements on the part of the electric company to make them conform to the Glendale rates, and the correspondence was referred to the City Clerk, with instructions to write the Company relative to an adjustment of rates on the Glendale basis.

A claim against the city by Daisy Mason was referred to Trustee Henry for investigation and report.

A request from the Red Cross Auxiliary for premission to use the assembly room afternoons in preparations for a bazaar to be held there December 13th, was granted by the Board.

A complaint of lack of drainage on Tropico avenue near the Anderson Garage was referred to the Street Superintendent for investigation and report.

Demands

The following demands were then read and ordered paid: Western Auto $1 40; Engineer Wattles $2; Election Boards $60; Wm. Wiblitz (fire Dept. expense) $5.00; Wm. Wibletz (election expense) $4.50; Van Wie (election expense) $8.06; Baker (street labor) $5; Fairfield (fire dept) 2.14.

The Board then adjourned.

DEATH OF C. C. CHANDLER

Just as the Sentinel was going to press news was received of the sudden death at 11 a. m. Wednesday, of C. C. Chandler, of Cypress and Brand Boulevard, one of the pioneers of Tropico and prominently identified with its interests. He was driving through the Park Avenue Tract, of which he was the owner, and fell from the buggy. Two little girls who witnessed his fall gave the alarm and friends came at once, but life was extinct.

POSSIBLE PHONE PURCHASE

The contemplated merger of the Sunset and Home Phone Companies in Glendale and the announcement that after the merger there would be a toll charge between Los Angeles and this district has considerably dismayed telephone users. Protests against the merger have been filed by the wholesale with the State Railroad Commission. Now Glendale is said to be considering the purchase of the Home plant and adding it to the other utilities controlled by the city. That is one way of preventing a monopoly, and perhaps not a bad way. A toll on Los Angeles messages would be a great hardship not alone upon the residents of Tropico and Glendale but upon the Los Angeles merchants who have customers in the district.

GLENDALE ENTERTAINS SOLDIERS

The Ninth Company, Coast Artillery, is to be entertained by Glendale Thanksgiving Day. They will come up from Dead Man's Island in the morning and give a drill on the High School campus followed by a football game with the Union High team, which will probably end about the time it will be proper to serve the turkey dinner which will be prepared for them. The receipts from a ball given in their honor at Masonic Temple Thursday night will pay their travelling expenses and any surplus will go to their mess fund.

THANKSGIVING ON MOUNT LOWE

The Pacific Electric Railway is planning a unique Thanksgiving celebration at its Alpine Tavern on Mount Lowe. In addition to an old-fashioned Thanksgiving dinner, served both at noon and six o'clock, there will be a "House Party" on Thanksgiving evening, with games, entertainers and informal dancing.

The special $1.50 excursion fare from Los Angeles to Mount Lowe and return will remain in effect until Monday, December 3rd, to enable those who desire to prolong their Thanksgiving visit over the week end.

NO PRICE IS FIXED ON BEANS BY THE FOOD ADMINISTRATION

In answer to inquiries from the important bean-producing sections the United States Food Administration announces that it has fixed no price on beans and does not contemplate doing so.

The food-control act does not authorize the Food Administration to fix prices to the grower of beans, but it has the responsibility of preventing the various agencies in distribution from exacting unreasonable profits, to the end that beans may reach the consumer at as reasonable a price as is consistent with a reasonable profit to any necessary factor in distribution. Speculating and hoarding and reselling within the trade must be discontinued, and dealers are required to sell at a reasonable profit over actual cost at the time of sale, without regard to the market or replacement value.

This policy is adopted for the protection of the producer as well as for the consumer, and it is much to be desired that every bean grower using soil adapted for bean growing and exercising due care and diligence should receive a fair profit over the cost of production.

FACTS ABOUT FOOD SUPPLIES PUBLISHED BY THE NATIONAL GOVERNMENT

The Food Administration has issued the following:

The effect of the new licensing system of the Food Administration should be felt immediately in lower prices in many stores on canned corn, tomatoes, and peas.

Many lines of canned goods were bought by dealers at low prices last spring on future contracts. These goods are now being delivered, the canning season being at an end. If the dealers take only a reasonable margin of profit on these goods, the prices to the consumer should be correspondingly low.

Inventories Required

All dealers in foodstuffs who were licensed November 1 by the Food Administration will do well to take an inventory at once, because they will be required to give details of the condition of their business November 1 in their first reports, which must be submitted at Washington December 1.

Cattle Rescued

Enough cars have been requisitioned through the efforts of the United States Food Administration in cooperation with the commission on car service to bring 150,000 head of cattle out of the drought-stricken districts of Texas and northern New Mexico and place them in territory where there is ample pasturage and water to sustain them properly.

Plenty of Turkeys

Plentiful supplies of turkeys are available for the Thanksgiving market, according to information in possession of the United States Food Administration, if the large stock of turkeys now in cold storage is placed on sale.

The Food Administration will require that this poultry be rapidly placed on sale under the provisions of the food-control act.

With a larger volumn of the product going on the market for sale consumers may look for an abundant supply at lower prices.

FIRST AID CLASS

About eighteen are now enrolled for the First Aid Class organized under the auspices of the Red Cross Auxiliary, with Dr. Mabry, who gives his services, as instructor. After the second lesson the roll will have to be forwarded to Red Cross headquarters, and no more members can be added to the class. It will therefore be necessary for any one who wishes to join to give his or her name to the Secretary, Miss Regine Bacon without delay. Miss Bacon will hold the roll for a few days after the second lesson to give any new applicants a last chance.

The first lecture was given last Thursday evening at the City Hall. Hereafter the class will meet Wednesday evenings at 7:30 o'clock.

Though this first lesson was a general preliminary talk on first aid, it was deeply interesting and was followed with close attention. The Doctor explained that first aid must sometimes be given under circumstances when none of the appliances of a hospital are available and when the shrewd inventive genius of a non professional may employ some substitute for the proper instrument or appliance when the physician, accustomed to every professional aid, is helpless.

The doctor explained that in automobile collisions and similiar accidents, the first thing to be expected is "shock", and broken bones, but the effort must be to give first aid to those who are in greatest need. If for instance one passenger has a broken arm, and another a ruptured artery from which the blood is spurting, the bleeding must be stopped or death will ensue in a few minutes, whereas the broken bone can wait.

He described the symptoms of "shock" and advised against attempting to revive patients by trying to make them swallow stimulents likely to strangle them. The old fashioned "hartshorn" applied to the nostrils he thought would be more efficacious. He pronounced aromatic spirits of ammonia the best of all stimulants, but said it is not a good thing to give without water because it is very volatile and may cause choking.

He spoke of the natural disposion of persons who are first at the scene of an accident, to try to raise the injured and said it should not be done, that they should be kept in a recumbent position until the extent of their injuries can be ascertained. Sometimes it is necessary to force a patient to lie down. It can always be done, he said by pressing on the forehead and the knees.

A point which the doctor strongly emphasized is the need to exercise the necessary will power to keep perfectly calm in approaching the victim of an accident, no matter how terrible the condition may be.

He also warned the class against expecting any gratitude or special appreciation of any first aid they might render. The victims of accidents in most cases, he declared, are so absorbed in their own troubles that they take what is done for them by the public as their natural due, and will sometimes make no effort to compensate those who come to the rescue or open their houses and take them in. Those who undertake to prepare themselves to render first aid in time of need must therefore serve for service's sake, and get their reward in the conciousness of well doing.

The second lesson, which was given Wednesday night. took up the subject of bandages.

THE NEW MAUSOLEUM

Charles W. Kent of Glendale has been awarded the general contract at $15,000 for the reinforced concrete and granite mausoleum and columbarium which is to be built at Forest Lawn Memorial Park. Its dimensions will be 227 x 40 feet. It will contain a handsome chancel and waiting rooms, and 800 crypts and family vaults. Plans were drawn by a San Francisco architect. The walls will be of reinforced concrete with granite facing, there will be marble floors and steps, art glass dome and bronze grilles and its whole ensemble will be beautiful and imposing.

Elks' Magic

Glendale Elks delight in playing the big brother when occasion offers. One of the prettiest examples of what they can do in this role was given a few days ago when they learned of the predicament of an aged couple, Mr. and Mrs. Nell, who were anticipating a new home. The lumber was on the ground and Mr. Nell was about to begin the work when he suffered a stroke of paralysis. To Mr. C. E. McPeek, an Elk who called upon him, Mr. Nell spoke of their disappointment and the necessity of returning the lumber to the dealers.

It was a chance for the big brother and Mr. McPeek improved it. Summoning the workmen employed on the New Elks Club House, he explained the situation and secured there and elsewhere enough volunteers to build in one day a little home which Mr. and Mrs. Nell are now occupying and greatly enjoying.

The prophet Jeremiah was confined in the pillory (Jeremiah xxix, 26), which appears to have been a common mode of punishment in his time.

LOCAL HAPPENINGS

Letter from Rolland Benner

Mrs. Thomas Meagher reports an enthusiastic letter from her nephew, Rolland Benner, formerly of Tropico who enlisted in the beginning of the war and is now at San Diego with the infantry troops. He seems to be thoroughly happy and satisfied with the course to which he has pledged himself. Mrs. Benner has three sons and has expressed her willingness to give them all if they are needed.

Return of Mrs. Welton

Mrs. E. D. Welton, sister of Mr. Hal Davenport, came down from San Francisco last Thursday and spent part of the week with her son in Los Angeles. The week end she gave to the Davenport family. She expects to remain in Los Angeles from this time on.

Death by Paralytic Stroke

Mrs. Al Holmes, cousin of Mrs. Thomas Gaither, who was her guest for several weeks and who returned with her husband to Sacramento by auto about two weeks ago, died suddenly of a paralytic stroke. Mrs. Gaither has not yet received the sad particulars.

Entertains Old Friends

Mr. and Mrs. Samuel Charles of Los Angeles and Mrs. George Shepard Savage of Chicago were luncheon guests of Mrs. William Harvey Jr., last Friday.

A Kansas Builder

Mr. Kemper of Topeka, Kansas, was a guest in the Dransfield home on North Glendale last Saturday. He and his son are building a number of houses in Burbank and Glendale.

Small Houses Needed

Mr. J. J. Burke of Blanche avenue reports a stronge demand for small houses of about four rooms which can be rented for $12 to $15. He declares that houses of that class in a bungalow court or singly would rent readily; that all the small houses in Tropico and Glendale which are conveniently located with regard to the P. E. service,, are now filled and applicants are being turned away by the real estate agents to whom they apply. He advocates the building of a bungalow court.

Luncheon

Mrs. William Harvey Jr., gave a luncheon last week for an old and very intimate friend, Mrs. George W. Anderson of Chicago. Other guests were Mrs. Josephine M. Williams of Hollywood, Mrs. Charles Dwight Willard of Madison Court, this city, Mrs. Oliver Merrill of Glendale and Mrs. A. H. Sellers of Pasadena. Mrs. Anderson is a musical composer of some note.

Mr. L. W. Chobe has been appointed Building Inspector of the City of Glendale, to take the place of J. M. Banker who is now engaged in the building contracting business.

Mr. Williams Returns

Mr. Ernest Williams who returned to Minneapolis about fourteen months ago in the expectation of remaining for two or three years, has come back to Tropico and is now living at 812 South Brand. He couldn't resist the lure of Southern California.

Mr. H. D. Roberson of the Sunset Nurseries, admits that now is the proper time to set roses and ornamental shrubs, but he is a strictly patriotic man who advocates economy and conservation, and regardless of his own interests he is sounding the "grow more food" slogan.

Meeting of School Trustees

Tropico School Trustees will meet, probably for the last time, Monday evening, December 3d, in the Cerritos School House.

Tourists from Topeka

Mr. B. Kestler, head of the McCord-Kestler Wholesale Grocery Company of Topeka, Kansas, which has twelve or thirteen branch houses, in company with Mrs. Kestler, visited last week, Mr. Dransfield, who was a salesman for the house for about ten years. The two men were delighted to see each other and had a fine visit.

Will Spend the Winter Here

Among the new comers to Southern California are Mr. and Mrs. Emerson of Kansas, who are visiting their son, Bert Emerson, Secretary, Treasurer and Auditor of the Southern California Conference of Seven Day Adventists. They came from the Kaw Valley and are old friends of the Dransfield family, whom they visited last Saturday. They plan to spend the winter in Glendale.

Down from Montana

Mrs. George Seal, daughter of Mrs. W. Scofield of South Glendale ave., and sister-in-law of Clyde Seal, arrived from Montana last week with her baby daughter, and will probably spend the winter with her mother.

Patriotic Scholars

Mr. Dransfield of 124 North Glendale, states that good reports have been received from Ben Palmer, of Topeka, Kansas, who came to California to visit the Dransfield family and enlisted in the Signal Corps. He is now at Camp Kearny. He is an old friend of the family and attended the school of which Mr. Dransfield was a trustee. It is a great school, according to Mr. D. who says all the boys who were subject to call enlisted and are now officers. Mr. Palmer was the last one left. It was a school of four or five rooms in one of the richest districts of the Kaw Valley.

Goes To Philadelphia

Mrs. H. S. Ryerson of Madison Court left last week Wednesday for Philadelphia to join her husband, Ensign Ryerson, for a last visit before he sails for "somewhere" in foreign waters. She will probably be absent for six weeks or two months.

Entertains Old Friend

Mrs. Charles Dwight Willard of Madison Court had as her house guest last week, Mrs. George W. Anderson of Chicago.

DR, RUSSELL LOSES BROTHER

Dr. Jessie Russell went to Illinois last week to attend the funeral of her brother, Leonne Jack who died in camp at Fort Thomas, Ky., November 19th. He belonged to a cavalry regiment and enlisted from Glendale on the first call. His remains were taken to his old home in Illinois for interment.

P. E. O. MEETING

A very interesting and profitable session of the P. E. O. was held at the home of Mrs. John Hobbs last week. The year's program arranged for three talks on "Our Army, Past", "Present" and "Future". At the meeting mentioned Mrs. William Mabry gave the second of the talks on "Our Army of the Present," As the wife of a navy surgeon Mrs. Mabry had sources of information not open to all women. Her descriptions of the different departments were very enlightening and were followed by entertaining personal reminiscences. A luncheon was served by Mrs. Hobbs, assisted by the hostesses of the day.

Riches in Prospect

Mrs. Robert Danner has received a letter from her mother, Mrs. Chadwick stating that she has executed a lease on her Kansas land near Walnut to operators who will drilll for oil. If their hopes are realized, Mrs. Chadwick will achieve a financial independence which will make her the envy of all her friends. She expects to remain in Kansas until the test is completed.

Quarterly Conference

The first quarterly conference of the Tropico Methodist Church was held Monday night. The District Superintendent, A. Ray Moore of Pasadena, was present.

Walter Fishel's Visit

Mr. and Mrs. Fishel had the pleasure of a nice visit with their son, Walter, the first part of the week. He was given a furlough From Sunday to Tuesday and spent it here. He is serving on Point Loma as one of the Naval guards.

RETURNS FROM FRESNO

Mr. Shugrue of Blanche Avenue returned from Fresno last Tuesday. He has resigned his job there and accepted a position in Los Angeles.

Church Supper and Sale

The Ladies Aid Society of the Presbyterian Church will hold a utility sale and chicken pie supper in the Sunday School room of the church Friday evening, December 7th. Supper will be served in cafeteria style from 6 to 8 o'clock, and there will be music throughout the evening. Needless to say, everybody will be welcome.

Birthday Dinner

Dorothy Danner and Gladys Goddard were hostesses at a party in celebration of Dorothy's birthday last Saturday evening at the home of Mr. and Mrs. Goddard on West Park avenue.

Thirty-five guests enjoyed the hospitality of the young ladies. A yellow white and green color scheme featured floral and table decorations and was carried out in two handsome birthday cakes illuminated with candles in the appropriate colors. Dorothy's cake was the gift of her aunt, Mrs. Charles Bruck. Though there was a gay time with games and music furnished by a violin, banjo and piano, war was not forgotten, as one soldier and two sailors were present.

Y. M. C. A. FUND

A splendid canvass for the Y. M. C. A. war fund was made in Tropico and its quota of $1000 was undoubtedly raised. Following are the donors on the list returned by Mr. John A. Logan and his lieutenants. Mr. Van Elten's has not been furnished the Sentinel up to the date of this writing.

Frank Ashton	$10.00
Dan Campbell	$20.00

Record Corn Pack This Year

Canned corn should be available in large quantities to the consumer this winter, as it is predicted that the total pack for 1917 will reach 11,000,000 cases, the largest since 1912.

The total for 1914 was 9,919,950 cases. The large pack this year should place canned corn on the list of food products to be obtained at reasonable prices.

THE SUGAR SHORTAGE

The United States Food Administration authorizes the following:

The transportation division of the United States Food Administration states emphatically that it is not true that large quantities of beet sugar are being stored in warehouses because freight cars can not be procured to haul them to eastern markets. This false impression has been created to some degree by the publication of untimely and ill-founded assertions to that effect in the East.

The shortage of sugar is principally due ot the fact that this country has not curtailed its consumption, while our exports have materially increased, so that the remaining sugars from last year's crops are not sufficient to last until January 1, when the new Cuban crop will become available.

The beet sugar produced in the West is largely consumed there, and owing to the backwardness of the season this year's beet crop is two or three weeks later than usual, which has made it impossible to move any volume of beet sugar up to now. The railroads are now moving this beet sugar to the Middle West, where a shortage of sugar exists like that in portions of the East.

When the natural beet territory has been taken care of beet sugar will move to supply the East until the eastern refiners can take care of the situation. The railroads are supplying the necessary car equipment, and in most instances the sugar is now moving eastward as rapidly as produced. Sugar will be shipped from Louisiana as well as from the West, and the supply distributed over as great an area as possible.

Salt Shortage Reports Denied

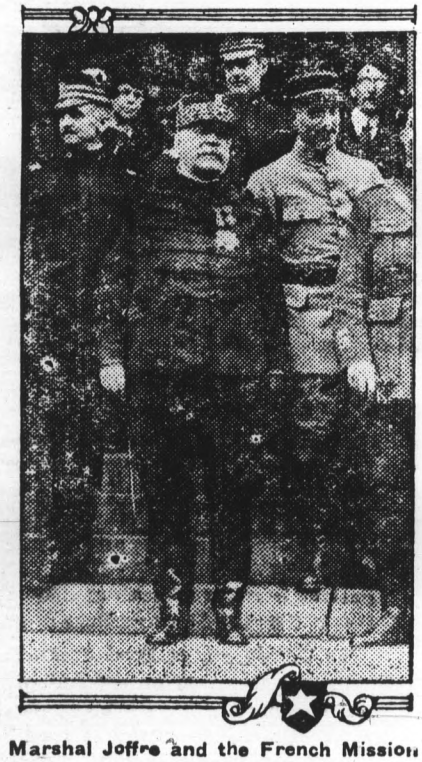
Information has reached the United States Food Administration of widespread rumors of a shortage of salt, These rumors were to the effect that packers and others were running short. The International Salt Co., of New York City, upon inquiry,denied that there is any existing shortage.

Strong impulses are but another name for energy. Energy may be turned to bad uses, but more good may always be made of an energetic nature than of an indolent and impassive one.—John Stuart Mill.

FRENCH INDUSTRY IS RECOVERING

EXPORT BUSINESS GROWING

With Paris Boulevards echoing with "vives" for American troops our interest in the welfare of our ally vastly increases, and the facts are not lacking to encourage the belief that she is already on the road to recovery from the blow of invasion by a ruthless enemy. One of the most important de-



Marshal Joffre and the French Mission In America.

velopments is the announcement that one of the largest banking institutions in America concerned with foreign trade, the Guaranty Trust Company of New York, has opened a Paris branch to handle the rapidly increasing volume of French business.

This action may surprise many persons who had thought of France as bowed under a calamitous invasion. The bank, however, gives figures indicating that France is not only meeting her military and civilian problems with a stout heart and never failing courage, but is re-establishing her export business with this country.

In 1914, the year of the outbreak of the War, imports from France to this country totaled $141,446,252. This total was reduced to $77,158,740 in 1915, but last year the value of French imports to the United States rose to $102,077,060.

"A nation that can achieve such a commercial recovery while her territory is being ravished by the invader," says the Trust company's statement, "possesses recuperative powers which

General Pershing Arrives In France.

justify the belief that she will emerge from the present conflict prepared to meet and solve triumphantly the problems which confront her."

The commercial and industrial record of France, following past wars, indicates that she should recover quickly from the actual physical destruction inflicted in the present conflict. The reconstruction of railroads, the erection of factories to replace those destroyed, and the replacement of the mechanism of industrial activity that will be required and that is in part already planned, offer a peculiarly inviting field to American capital and enterprise. Tentative steps have already been taken by representatives of American engineers and business men in this work.

Speeding It Up.

"What is the reason that Jones' trade shows such a remarkable spurt the last month?"

"Why, you see, Jones was standing for the business, but now his wife's running it."—Baltimore American.

Nature won't stand for overdrafts any more than your bank.

HELPFULNESS.

If you know how to make man better, if you can keep him from becoming a quitter, it is your duty to speak out with voice or pen to make your fellows better men.

Rule To Prevent Speculation By Condensed Milk Exporters

The war trade board, at the request of the United States Food Administration, announces the following additional regulations to govern the exportation of condensed milk.

"No licenses shall be granted for the export of condensed, canned, powdered, or other forms of preserved milk unless there shall have been filed with the bureau of exports a certificate of the manufacturer stating that such milk has been sold directly to the exporter and for export purposes, or unless compliance shall be had with such other regulations as may be determined by the Food Administration."

The object of the certificate from the manufacturer is to discourage the operation of speculators who have been purchasing from the retail stores the brands of milk which the manufacturer has set apart for distribution to the American public. The operations of these speculators has created a false condition of the market, and the United States Food Administration has felt that if the exportation of canned milk could be controlled by the manufacturer, that the true export demand and the real demand for home consumption could be accurately determined and such a distribution made of such surplus to our allies for civilian as well as military purposes.

WANTED

Materials suitable for aprons are wanted by the Chairman of the utility booth of the Red Cross Bazaar, which comes off December 13th at the City Hall.

Also contributions for the White Elephant Booth or in fact for any other booth will be gratefully received.

Whatever is donated in the way of raw materials will be manufactured by the mothers and daughters of the Auxiliary into something attractive and useful.

Special Program

A splendid program will be given by the Sunday School of the Tropico Methodist Episcopal church on Sunday under the direction of the missionary superintendent, Mrs. Thomas Meagher. Miss Jean Loomis, who is at home for a short time,, from the mission fields of China, will be present, and some Chinese girls who will speak and sing in their native language. They will be dressed in the beautiful Chinese costumes of the Orient. All parents and friends of the children are most cordially invited to attend.

Canned Food "Buyers" Frauds

The Food Administration authorizes the following:

Reports have reached the United States Food Administration that men claiming to be its representatives have attempted to buy the home-canned products put up by housewives in various parts of the country, claiming that they did this by order of the Food Administration.

These men are imposters, the Food Administration never having sanctioned their policy or activities. Former rumors that the Government contemplated the commandeering of home-canned goods also have been officially denied.

Special Premits Required To Can Dried Beans And Peas

The United States Food Administration announces that on account of the possible shortage in tin plate necessary for the conservation of food products during the year 1918, it has included in the rules governing canning operations the regulation that no dried beans or dried peas shall be canned without a special permit from the Food Administration, and it is now illegal for canners to operate on these products without special permit.

Home to Recuperate

Miss Jessie Gallop has just been discharged from a Los Angeles hospital where she underwent an operation for appendicitis. She is recuperating at her father's home on Central and Cypress.

IN TIME OF WAR PREPARE FOR PEACE

The Chamber of Commerce of San Francisco is advertising the importance of the National Foreign Trade Council composed of leading men in commerce, manufacturing, farming, banking and transportation, to be held in Cincinnati, February 7th, 8th and 9th.

In its weekly circular the Chamber points out that exports in 1917 over those of 1914 show an increase in domestic merchandise of 167.5 per cent, in war munitions an increase of 686.1.

"When peace is declared", the circular asserts, "we will certainly lose the exports of war munitions and accessories and supplies which now amount to $2,127,940,000. What will become of the factories now making these articles and the men working in them and earning large wages?

"That Japan and the European countries are alive to this situation is clearly proven by the preparations which are now and have been for some time going on. Will peace find us unprepared? Will we lose the foreign commerce we have worked up during the war? * * * If we are going to transform our munition factories into factories making articles of peace that will be required by the world, something more than talk is necessary. It is not only the duty of our talk is necessary. It is not only the duty of every business man in the country."

The circular then urges attendance upon this convention.

NO SLACKING IN POSTAGE

Postal authorities have been getting after San Francisco concerns which have been trying to reduce somewhat the extra cost of postage by sending their Oakland letters to that city and mailing them there for 2c. The government rules that they must be mailed in San Francisco at 3c.

WAR TAX ON FREIGHT

The tax on freight shipments is three per cent of the freight charges. It applies to railways, steamship lines and motor trucks serving as common carriers in this section. Whoever pays the freight pays the tax.

The railroads, the steamship lines and the jitneys must collect and turn over to the Government a tax of 8 per cent. where a passenger fare is over 35c "not including the amount paid for season or commutation tickets for trips less than thirty miles or transportation the fare for which does not exceed 35 cents."

The No-Auto Day

You are saving food by denying yourself to help win this war. Save gasoline, rubber and oil, equally essential to success in the war, by leaving your auto in the garage two days each week. Quick, safe, frequent, comfortable, are the RED CARS OF THE PACIFIC ELECTRIC—and riding thereon is less expensive than in your own machine.

Timetables and full information at all ticket offices and information bureaus.

THE PACIFIC ELECTRIC RAILWAY

Our National Anthem

The Star Spangled Banner

O, say can you see by the dawn's early light,
What so proudly we hailed, at the twilight's last gleaming,
Whose broad stripes and bright stars thru the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rocket's red glare, bombs bursting in air,
Gave proof thru the night that our flag was stil
Oh! say does the star spangled banner yet wave
O'er the land of the free,
And the home of the brave.

On the shore dimly seen thru the mist of the deep
Where the foe's haughty host in dread silence r
What is that which the breeze o'er the towering s
As it fitfully blows, half conceals, half disclose
Now it catches the gleam of the morning's first beam,
In full glory reflected, now shines on the stream;
'Tis the star spangled banner, oh! long may it wave
O'er the land of the free,
And the home of the brave.

Oh, thus be it ever when freemen shall stand
Between their loved home, and the war's desolation;
Blest with vict'ry and peace, may the heaven rescued land
Praise the Power that hath made and preserved us a nation;
Then conquer we must, when our cause it is just,
And this be our motto, "In God is our trust,"
And the star spangled banner in triumph doth wave
O'er the land of the free,
And the home of the brave.
